Organisation

Air Liquide Benelux Industries Industrial Merchant (ALBI IM) entities :

L’AIR LIQUIDE BELGE S.A.
Avenue du Bourget 44
1130 Bruxelles
Belgium

AIR LIQUIDE BV
De Witbogt 1
5652 AG Eindhoven
Netherlands

L’AIR LIQUIDE LUXEMBOURG S.A.,
Centre de Service de Rodange, ZI du
PED, 4801, Rodange
Luxembourg

Scope

On behalf of ALBI IM entities, Vinçotte performed a claim validation of liquid nitrogen, liquid oxygen and liquid argon labelled “ECO ORIGIN” and sold by ALBI IM entities in 2025. The validation was performed by Vinçotte in accordance with the methodology and procedures set out in the Claim Protocol Validation report¹ and the Verification Protocol Report². The Claim Protocol and the Verification Protocol were developed according to the ISO 14020:2022 “Environmental statements and programmes for products – Principles and general requirements” and ISO 14021:2016 “Environmental labels and declarations – Self declared environmental claims (Type II environmental labelling)”.

The types of products concerned by the Claim are: liquid nitrogen, liquid oxygen and liquid argon (all qualities). To produce the quantities of aforementioned products, sold to the customers, ALBI IM entities are committed to:

- Use renewable energy generated in Europe for the production of aforementioned products;
- To offset the CO2 emissions generated by the transport of the products to the customers by purchasing an equivalent amount of Verified Emission Reductions.

Declaration of independence

The validation was carried out by Vinçotte as an independent third party.

This statement may only be communicated and reproduced in its entirety and without change.

Conclusion

Based on the work undertaken, it is the conclusion of Vinçotte that:

- All direct electricity use coming from the production of aforementioned products are accounted for by purchasing the equivalent amount of renewable energy in Europe;
- The CO2 emissions generated by the transport of the products to the customers are accounted for by purchasing an equivalent amount of Verified Emission Reductions;
- The Product Carbon Footprint of aforementioned “ECO ORIGIN” products is correctly updated with the data of the year 2025.
